### **Abstract**

Economical reform has led to difficulties in economics. Labor conditions at industrial enterprises are poor. Kazan' State Medical University has investigated occupational diseases of mental workers. Hygienic, medicinal, prophylactic, and organizational measures have been developed for improving the labor conditions. Emotional stresses have been investigated. Influence of computer work on man health is studied. Labor conditions at enterprises manufacturing the films and magnetic tapes have been investigated. Activities of workers at automobile plants have been studied. International cooperation is developed.
